

**Agreement on the construction of the Agenda of the Accord for Peace, at the Peace Dialogues
Table between the National Government delegation and the General Staff of the Blocs
commander Jorge Suárez Briceño, Magdalena Medio - commander Gentil Duarte and the Front
commander Raúl Reyes**

Bogotá D.C. on 14 July of 2021

The Peace Dialogues Table has adopted an agenda for the construction of a Peace Agreement with social and environmental justice, initially identifying some thematic axes, participatory criteria and a working route.

We understand that the construction of the Peace Agreement requires the active contribution of the various economic and social sectors of Colombian society, in those territories directly involved in the critical conflicts situations, at local, regional and national levels. Consequently, we define the Agreement and the participation protocol as the backbone of the route for the Peace Agenda, with criteria of pluralism, autonomy, inclusion, respect for diversity, the rights of peoples and to self-government.

Both in the participation and in the thematic contents, proposals related to territorial, population, ethnic, intersectional, differential and human rights approaches will be taken into account, including DESCA. As well as the rights of peasants and the relationship between urban-rural; the rights of women; boys, girls and adolescents; young people, LGBTIQ+ people or people with Diverse Sexual Orientations and Gender (OSIGD) and all vulnerable populations and protected groups within the framework of applicable national and international regulations.

Progress in territorial transformations and in the participatory construction of the contents of the Peace Agreement requires strict compliance with the ceasefire agreements and protocols and respect for the civilian population.

Thematic axes for the construction of the Peace Agreement:

1. Axis 1 Territorial transformations and immediate implementation agreements.
2. Axis 2 Lands and territory.
3. Axis 3 Environmental Peace.

4. Axis 4 Economic, labour and social affairs.
5. Axis 5 Political Affairs, corruption and culture of Peace.
6. Axis 6 Rights of all vulnerable and specially protected populations
7. Axis 7 Models of justice and victim's rights.
8. Axis 8 Conflict, security and weapons.
9. Axis 9 Guarantees for the parties after the agreement.
10. Axis 10 Normative frameworks and International relations for Peace.
