The PA-X website (https://www.peaceagreements.org/) is the website of the peace agreement access tool, currently hosting the PA –X Peace Agreement Database, PA-X Women and Gender Database, and PA-X Local Database ("the Databases").

All three Databases are protected by copyright and database right belonging to the University of Edinburgh and may only be used in accordance with these terms of use. The concept, selection and arrangement of the contents of the Databases was largely the intellectual creation of Professor Christine Bell, an employee of the University of Edinburgh. Professor Bell assert her moral right to be identified as the author of the Databases.

By accessing or using the Databases, you agree to be bound by these Terms of Use. We reserve the right to modify or update these Terms of Use at any time. Any changes will be effective upon posting the revised version on the Website. Your continued use of the Website after such changes constitutes your acceptance of the new Terms of Use.

The Tracker consists of data-driven applications that present the PA-X Databases and data by other providers in the form of interactive visualisations.

All three PA-X Databases used in the production of the Tracker and the Tracker format and relationships itself, are protected by copyright and database right belonging to the University of Edinburgh and Professor Christine Bell and may only be used in accordance with their own terms of use. All other data that are presented in the Tracker are protected by copyright as defined by the data providers and may only be further used in accordance with their terms of use (links provided in the Tracker where data is used, and all data providers are listed at the bottom of this document).

PeaceRep. However, you may not copy or re-utilise the Tracker in its entirety nor a substantial part of it to create any tracker or visual data presentation which would be identical or substantially similar to the Tracker.

You may not charge a fee for any use you make of any Tracker component or the data used therein and commercial use of the tracker, or any of its components or data, is strictly prohibited. Any use of data that are shown in the Tracker must be in line with the terms of use as set out by the original data providers and attributed to the original data providers.

Data Sources and Providers

Data used in the Tracker are provided by the following organisations and individuals. We list these sources and providers to the best of our ability to identify original data owners. Where data from these providers are used in data visualisations, an 'i'/'information' button provides the correct attribution/citation in line with their terms of use, with these buttons providing navigation to the relevant source's websites, or their full citations are on the website under the relevant content.

All reuse of Tracker components must attribute the visualisation to the Tracker owners and to the original data owners. All external sources have been used in accordance with Terms of Use and where necessary these have been checked with data users. However, if you are one of the data providers and have any concerns regarding this, please raise it through our 'Notice and Takedown policy' on PA-X Website.
